

OTC Markets offers cost-effective tools to help companies provide SMART marketplaces for their investors. SMART represents the five core features of an efficient financial marketplace for investors to analyze, value and trade securities. OTCQX®, OTCQB®, and OTC Pink® companies can create a smarter marketplace for their investors by improving these five features.

The **Blue Sky Monitoring Service** helps companies manage their 50-state Blue Sky compliance in order to more effectively **REACH** the large pool of investors who use financial advisors.

The service comes with a daily-updated audit of a company's status in each of the U.S. states and territories so that companies can determine in which states broker-advised investors can trade their stock. The Blue Sky Monitoring Service is also valuable as a tool to keep updated on changes in a company's Blue Sky compliance and information on how to gain compliance in additional states.

#### KEY BENEFITS

**Reach More Investors**—Blue Sky compliance is mandatory in each state in which any of the 280,000+ state and federally registered investment adviser representatives advise, discuss or recommend your stock to their investor clients

**Eliminate Research Barrier**—Many broker-dealers will not write research on companies that do not have widespread Blue Sky compliance

**Streamline Your Compliance**— Receive a complete analysis of your state exemptions, easily monitor changes in state securities laws that affect Blue Sky, and receive advance reminders when state filing renewals are due

#### FEES

\$3,000 per year.

#### ABOUT OTC MARKETS GROUP:

OTC Markets Group Inc. (OTCQX: OTCM) operates Open, Transparent and Connected financial marketplaces for investors to easily trade almost 10,000 equity and debt securities through the broker of their choice. Our OTC Link® ATS directly links a diverse network of broker-dealers that provide liquidity and execution services for a wide spectrum of securities. We organize these securities into tiered marketplaces to inform investors of opportunities and risks—OTCQX®—The Intelligent Marketplace for the Best OTC Companies; OTCQB®—The Venture Marketplace; and OTC Pink®—The Open Marketplace. Our data-driven platform enables efficient trading through any broker at the best possible price and empowers a broad range of companies to improve the quality and availability of information for their investors.
